

December 4, 2019

To whom it may concern:

We engaged with Eclipse Brand Builders in late 2016 to renovate our main branch lobby. I had just come into the credit union and was in the process of rebuilding our staff from top to bottom. To say that I had little time for such a massive project is an understatement.

Eclipse made the project painless. They were nimble and flexible and worked to ensure our needs and wants were met. They took time to listen to our input and always seemed to know when something was not going to mesh with our expectations. The CEO personally involved himself with ensuring that all of the workmanship was top-notch and that the final product was without flaw. Even the accounting was seamless and took loads of work off our accounting staff. The professionalism of the entire organization is stellar, and I would do business with Eclipse in a heartbeat.

I would highly recommend Eclipse Brand Builders to any business interested in building or renovating.

Sincerely,

A handwritten signature in blue ink that reads "Cheryl M. Spires".
