To Whom It May Concern:

Three years ago we began the process of contemplating the construction or renovation of our bank. We looked at several avenues to go about the process. We looked at self-contracting and design build. Eclipse was the obvious choice. They were very patient with us and respected this huge decision that we would be making. They presented options that we didn't even think about. They were very thorough in their interviewing process and determining what kind of facility would work for our bank now and in the future. Their four phase process provides clients with a clear road map of the project.

Mr. Gene Lock's leadership, Ms. Sharon Morris' patience and guidance, and Mr. Kent Culverhouse's architectural vision was second to none. The Eclipse team has the best design build process around.

On top of all of that, they provided us with a Construction Manager. Wow!!! We were blessed with Mr. Carsten Madsen. His experience and work ethic made this build a very pleasurable experience. He handled all of the day to day construction while on site. I very rarely heard of any problems because he just handled it. I'm sure all of the Construction Managers that Eclipse has are great, but Mr. Madsen was awesome!

This was a historic event in the life of Greenfield Banking Company and we couldn't have been more pleased with Eclipse Brand Builders!

I'm pleased to write this letter of reference for Eclipse Brand Builders and their team.

Sincerely,

**Randy E. Huffstetler, CEO
Greenfield Banking Company**
