To Whom It May Concern,

The purpose of this letter is to recommend Eclipse Brand Builders for Interior Design Services. We sourced Eclipse during the summer of 2019 as we began to plan the buildout of our newest pediatric dental practice, located in Peachtree Corners, Georgia. From beginning to end, Eclipse was extremely thorough and completely professional, bringing a modernized flare to our already unique branding concepts.

With Chris McClung at the helm, Eclipse worked with us through the brainstorming and conceptualization process for the interior design of our new practice, which gave us a bird's eye view of our marketing and intellectual property. Eclipse was able to refine our collective ideas and implement a comprehensive, multi-phase strategy which incorporated elements of our existing color schemes with a new and innovative aesthetic that represented and accentuated our brand.

In addition, Eclipse was able to work closely with other teams including architects, general contractors, and supply manufacturers to ensure their role in our project remained on-time and within budget. They also managed to find a balance between recommending quality materials and furnishings while minding costeffectiveness, which we very much appreciated as a privately-owned business.

After working with Chris McClung and the entire Eclipse Brand Builders Team for several months on our most recent practice opening, we believe with confidence that Eclipse has the experience, expertise, and integrity to meet and exceed any client's expectations.

Sincerely,

A handwritten signature in blue ink, appearing to read "m thebaut", enclosed in a light blue rectangular box.

**Mark D. Thebaut, D.D.S.**
